

DESCRIPTION

These pellets are a fast and economical way to melt unwanted ice and snow as low as -40°F. The powerful blend of calcium, sodium, and potassium chloride is 36 times faster than rock salt and will melt 46 times its weight. These pellets are noncorrosive to concrete, and non-harmful to grass. They can be safely used on cement, concrete, black top, tar, flagstone, brick and wood surfaces.

These pellets release heat to spread horizontally under the ice formation, so that a large area of ice is loosened by each pellet. Melted ice and snow will not refreeze, even at sub-zero temperatures, for periods up to 12 hours.

CAUTION

May be harmful if swallowed. May cause eye and skin irritation. Do not take internally. Avoid contact with eyes, skin and clothing. Wash thoroughly after handling.

FIRST AID:

IF IN EYES: Flush eyes with water for at least 15 minutes. If irritation is persistent, contact a physician.

IF ON SKIN: Wash skin with soap and water. Remove all contaminated clothing and launder separately before reuse. If irritation is persistent, contact a physician.

IF SWALLOWED: DO NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Contact a physician or poison control center immediately.

IF INHALED: Move person to fresh air. If irritation is persistent, contact a physician.

See M.S.D.S. for complete safety information.

WINTER PRODUCTS

PELLET DEICER

Exothermic Ice and
Snow Melter

- EFFECTIVE TO -40°F
- NON-CORROSIVE TO CONCRETE AND NON-HARMFUL TO GRASS
- CALCIUM CHLORIDE, SODIUM CHLORIDE AND POTASSIUM CHLORIDE BLEND

KEEP OUT OF REACH OF CHILDREN

CAUTION

May be harmful if swallowed.

May cause eye and skin irritation.

See side panel for further cautions and first aid instructions.

NET CONTENTS:

☐ 25 Lbs. ☐ 50 Lbs. ☐ 100 Lbs.

Manufactured By: Total Solutions™
PO Box 240014 • Milwaukee, WI 53224

DIRECTIONS

Application rates vary, and quantity and melting action depend upon temperature and thickness of ice and snow. For temperatures above 5°F, use 1/2 to one pound per square yard of ice. At 0°F, use 1 - 2 pounds. Spread evenly over the surface with a scoop, shovel or mechanical spreader.

When pellets have penetrated and cracked loose the ice layer, remove melted slush. Spread sparingly and evenly with a scoop, shovel or mechanical spreading equipment.

This Product Contains/CAS #: Calcium Chloride/10043-52-4; Sodium Chloride/7647-14-5; Potassium Chloride/7447-40-7; Water/7732-18-5.
