

Emulsifiable insecticide concentrate

This water-dilutable, broad spectrum insecticide is used to control pesky insects both indoors and outdoors. Its perfect for outdoor applications around buildings or on ornamental turf and shrubs. Use it indoors to control roaches, ants and other crawling insects around baseboards or under sinks and stoves. Since it's highly concentrated, it can be diluted with either oil or water to perform in any situation.

Use outdoors in non-crop areas:

- Ornamental lawns
 - Flooded areas
- Turf
 - Stagnant water
- Ant mounds
 - Temporary rain pools

Effective Against

- Ant
 - Biting midges
 - Chiggers
 - Fleas
 - Flies
- Gnats
 - Grass scale
 - Ground pearl nymphs
 - Leafhoppers
 - Ticks
- Mosquito adults
 - Mosquito larvae
 - Moths
 - Small flying insects

Features and Benefits

- Emulsifiable, concentrated contact insecticide.
- May be diluted with water or with oil.
- Excellent for thermal fogging.

Properties

Appearance.....	Yellow liquid
