

Quickly and safely remove heavy lime and scale build-up from machinery and tools, appliances, piping and other surfaces made of metal, stone, tile, concrete, plastic or glass. It cleans without the fumes and other hazards of strong acids and is safe to use on almost all surfaces.

#### DIRECTIONS

To remove heavy lime and rust apply this acid cleaner full strength. Allow to soak until the deposits are dissolved or loosened, then rinse with clean water.

To clean, derust and delime painted surfaces, small parts and metals including stainless steel and aluminum, dilute 1 to 4 ounces of acid cleaner per gallon of water. Soak or brush on and rinse thoroughly when deposits are removed. As a glass rinse for removal of water spots, use 1 to 2 ounces in 4 gallons of rinse water

# ORGANIC ACID CLEANER

CLEANS, DELIMES, DESCALES  
DISHWASHERS, SINKS, STEAMTABLES,
