

Reduces odors and sludge in oily waters

Bio-Blast HCB contains a unique blend of spore forming bacillus strains that speeds up the digestion of sludge and solids in reclamation pits. This blend is able to degrade a wide variety of petroleum-based oils and greases, reducing malodors and sludge, and saves money by reducing costly pump outs.

Use in:

- Car and truck washes
- Marine bilges
- Petroleum contaminated wastewater

Effective Against:

- Gasoline
- Diesel Fuel
- Fuel Oils
- Motor Oil
- Crude Oil
- Coal Tar

Features and Benefits

- Extends sludge and solids build-up in reclamation pits.
- Reduces sludge and solids build-up in reclamation pits.
- Reduces odors by digesting malodorous compounds inside pit.

Properties

Appearance.....	Green Liquid
Fragrance	Pleasant
Concentrate.....	Yes
Specific gravity.....	1.00
Stability.....	1 year
Protect from.....	High and Freezing temperatures
Biodegradable.....	Yes

Directions Complete directions on product label

Using a single dose or automatic continuous feed system, feed 18 to 20 ounces per day into a 500 to 1,500 gallon tank (65 to 200 cubic feet).

For tanks greater than 1,500 gallons (200 cubic feet), feed at a rate of 32 to 40 ounces per day.
