

Maximum safety with minimum effort

These calcium chloride-based pellets generate exothermic heat to power through thick snow and ice accumulations. They work in temperatures as low as -40°F below zero and prevents refreezing. Plus, they are non-corrosive to concrete and will not leave behind a residue or kill grass.

Use on:

- Sidewalks
 - Ramps
 - Brick
- Driveways
 - Loading docks
 - Concrete
- Stairs
 - Parking lots
 - Asphalt
- Bridges
 - Tar
 - Flagstone

Note: Not for Food Use

Features and Benefits

- Works immediately to melt ice, frost and snow
- Non-corrosive to concrete when used as directed.
- Effective in temperatures as low as -40°F
- Generates exothermic heat to power through thick deposits
- Prevents refreezing
- These pellets are 36 times faster than rock salt and will melt 46 times their own weight.

Properties

Appearance.....	White pellets
Fragrance	None
Ready to Use.....	Yes
Specific gravity.....	2.2
Application.....	spread with scoop, shovel or mechanical spreading equipment.

Directions Complete directions on product label

Spread product before snowfall or to remove snow and ice.
May be used in combination with sand, cinders, liquid ice melters and salt.

Active Ingredients

Calcium chloride.....	CAS Number 10043-52-4
Sodium chloride.....	7647-14-5
Potassium chloride.....	7447-40-7

Safety

Caution: Irritant. Harmful if swallowed. Keep out of the reach of children.
