

STEAM & HOT TANK CLEANER

Product # 662

Heavy-duty alkaline stripper and cleaner

This powdered cleaner contains a balanced blend of detergents, builders and caustic agents to quickly strip away grease, oil and other deposits from metal parts, machinery, and construction and farm equipment. Its medium-foaming formula is designed for use in steam cleaners and pressure washers, but it can also be used as a "soak" solution for hot tank degreasing. It rinses freely and is fortified with special corrosion inhibitors to protect nozzles and coils from clogs.

Use on Ferrous and most Non-ferrous Metals:

- Engine blocks
- Radiators
- Heat exchangers
- Boilers
- Auto shops
- Industrial use
- Food processing plants
- Machine shops

Effective Against

- Grease and oil
- Dirt and grime
- Soil deposits

Features and Benefits

- High alkaline detergent cleaner.
- Dissolves rapidly and completely in water.
- Quickly dissolves heavy grease and oil, as well as encrusted soils off metal.

Properties

Appearance.....	White powder
Fragrance	Detergent odor
Concentrate.....	Yes
Solubility.....	Soluble in water
pH.....	14.0 (10% in water)
Foaming.....	Medium foaming

Directions Complete directions on product label

For normal cleaning, dissolve 16 ounces in 3 gallons of water. For extremely soiled surfaces, or heavy deposits, a stronger solution may be required. For best results, the temperature of the hot tank should be maintained between 180°F to 190°F.

Active Ingredients

	CAS Number
Sodium Carbonate	497-19-8
Sodium Metasilicate	6834-92-0
Sodium Tripolyphosphate	7758-29-4
Sodium Hydroxide	1310-73-2
Poly (oxyethylene) nonylphenol	9016-45-9

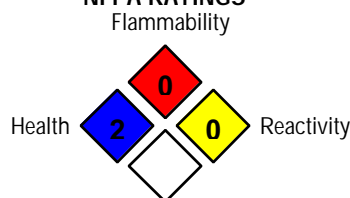

Safety

Danger: Causes severe burns. May be harmful if swallowed. Keep out of the reach of children
