

Water-based urethane finish & sealer

This liquid finish and sealer is designed specifically for maximum adherence to terrazzo and other porous stone flooring. Its water-based urethane formula also offers a superior base coat for acrylic finishes that are subjected to burnishing or spray buffing operations. It forms a solid, level surface and creates strong bonds between the finish and the floor's surface.

Features and Benefits

- Gives floors a 'tough-as-stone' foundation to create sparkling finishes.
- Forms a solid, flat surface.
- Allows solids in the finish to reflect light straight up, creating a "wet-look."
- Creates a strong bond between the finish and the floor.

Properties

Appearance.....	White opaque emulsion
Fragrance.....	Mild
Ready to Use.....	Yes
pH.....	8.0-9.0
Drying Time.....	20-40 minutes
Leveling.....	Excellent
Gloss.....	Variable with porosity of substrate
Application.....	Mop on using a rayon/cotton blend mop

Directions Complete directions on product label

Apply sealer on a newly stripped, cleaned terrazzo or stone floor. Do not use the same mop that was used for stripping the floor. Use a clean rayon/cotton blend mop to apply. Apply two coats, allowing sealer to dry thoroughly between coats.

Apply *Jewel*, *Crystal* or *Dazzle* floor finishes to provide low maintenance, high shine floors.

Active Ingredients

Water	
Acrylic Urethane	
Diethylene Glycol Methyl Ether.....	
Tributoxyethyl Phosphate	
Dibutyl Phthalate	
n-Methyl Pyrrolidone
